

Ram Goenka

Curriculum Vitae

Department of Statistics, University of Pittsburgh
rag334@pitt.edu
ramgoeka.github.io

Research Interests

Image Processing, Statistical Signal Processing, Generative Models, High-Dimensional Statistics

Education

- Aug. 2025 – **MS Statistics**, University of Pittsburgh
May 2027 Thesis (In Progress): *Posterior Fidelity & Conformal Calibration of Diffusion Inverse Solvers under Model Misspecification*.
Thesis Advisor: Dr. Satish Iyengar
- Aug. 2021 – **BSLAS Mathematics, BSLAS Statistics**, University of Illinois Urbana-Champaign
May 2025 Minor in Computer Science

Posters & Presentations

- Oct. 2026 **L^2 -Norm Two-Sample Mean Tests Under Compound Symmetry: Power Saturation, Decorrelation, and Signal Alignment [Poster]**
Keystone State Statistics Symposium, Pennsylvania State University

Research Assistantships

- Aug. 2023 – **Undergraduate Research Assistant**, National Center for Supercomputing Applications
May 2025 Mentor: Prof. Rebecca Lee Smith, University of Illinois Urbana-Champaign

Teaching Experience

- Aug. 2022 – **Undergraduate Teaching Assistant**, STAT 107: Data Science Discovery
May 2025 University of Illinois Urbana-Champaign
- May 2022 – **Undergraduate Teaching Assistant**, CS 124: Intro. to Computer Science I
May 2023 University of Illinois Urbana-Champaign

Professional Experience

- May 2024 – **Data Analytics Intern**, Synchrony Financial
Aug. 2024
- May 2023 – **Software Development Intern**, COUNTRY Financial
Aug. 2023
- Sept. 2022 – **Software Development Intern**, National Center for Supercomputing Applications
Aug. 2023

Selected Coursework (University of Pittsburgh)

- ECE 2372: Pattern Recognition
- ECE 2390: Image Processing and Computer Vision
- ECE 2523: Digital Signal Processing
- ECE 2646: Linear Systems Theory
- ECE 2671: Optimization Methods
- 11-755: Machine Learning for Signal Processing (at Carnegie Mellon University SCS)
- MATH 2301: Analysis 1 (Measure Theory)

- CS 2750: Machine Learning
- STAT 2132: Applied Statistical Methods II
- STAT 2221: Advanced Applied Multivariate Analysis
- STAT 2630: Intermediate Probability (Calculus Based)
- STAT 2640: Intermediate Mathematical Statistics
